Linda

At our staff meeting today, mention was made of an ORD study in Dimock, PA. FYI - in November, the OIG inquired about this Town - the emails are below.

Lori

Madeline

The project was approved by the board last Tues. They will be receiving SRF funds.

\$172,682 Loan
\$9,070,690 Private Funding
\$2,526,628 State Grant

Hi Mary,

I appreciate the background info you provided about Dimock PA. Would you mind checking to see if PENNVEST decided during the November 9th board meeting to make DWSRF funding available for Dimock?

Thanks!
Madeline

Lori and Madeline,

Here is what Pennsylvania Infrastructure and Investment Authority (PENNVEST) told me about the proposed Dimock water line extension project:

*The water line extension project is eligible for DWSRF funding.

*There is a possibility that DWSRF funding will be used for the project, but there is no certainty that the DWSRF will be used.

*The PENNVEST board will make a decision on the source of funding at the November 9th board meeting.

Please call me if you have any questions.

Subject: DWSRF and Dimock PA?

Hi Lori,

I am wondering about your progress in finding whether Dimock PA (in Susquehanna County) is receiving any SRF funding for a DW system. Apparently the Pennsylvania Department of Environmental Protection was going to arrange for safe water in Dimock by connecting the Dimock homes to a water supply in Montrose PA. It's possible that an oil company is paying for this because of a consent order. Please let me know what you learn. I really appreciate your help!

Thanks!

Madeline
